Subject: consultaion

to whom it may concern

My husband is one of the IMGs who passed the AMC's exams two years ago. He has sat for the OET many times to got the four Bs but unfortunately he couldn't, and the following are his test results for the last five test has been done:

<u>Da</u> te	Listening	Reading	Writing	Speaking
Nov 13	В	C	В	В
Oct 13	C	В	В	В
Aug 13	В	В	C	В
Jun 13	C	В	В	В
May13	C	В	В	В

We spend \$ 3000.00 during the last six months to pay for this test.

My husband now working for service station night shift for only \$11 per hour to cover the household and the OET expenses. We barely can pay our bills and other requirements.

All the family behaviour has been affected especially the kids as he can't spend much time with them because he is always studying and preparing to repeat the OET.

The most important issue now is his depressed mood especially after the last result because this is the first time he got C in reading.

We really appreciate it if the regulation of English language skills requirement for registration could be changed to pass this test on more than one sitting as we really need to participate in our beautiful Australian community.

Regards,
