Perth
Dear Sir/Madam,

I would like to give my opinion on AHPRA, English Language Registration Standard.

Since nursing field needs more interaction with Patients, we do need good standard on speaking and listening. But I don’t think we need individual 7 in writing and reading. And also we should accept the result from more than one sitting. So my options are,

1. We can ask for individual 7 for speaking and listening and at least 6 for reading and writing.

       or

2. We can ask for overall score of 7 and individual score not less than 6.

       or

3. We can club the results, that means accept result from more than one sitting.

Thanks and Regards

Antu KM
