Subject: Mandatory health checks for doctors over 70

Re this proposal I would submit that a more appropriate age for this to be done would be starting this at age 76 Generally most doctors function quite well till age 75 Between 70 and 75 if there is a complaint against a doctor in this age bracket relating to performance, then it would be reasonable to ask that doctor to present for a Health check I also think that the same standard should be applied to all politicians, government employees/ bureaucrats as well

Yours Sincerely  
Dr Rajeev Sharma
