You asked for feedback re health checks for over 70's. That seems onerous and age discrimination. I have been gradually reducing work hours since aged 60 and have stopped clinical work and now work only on tribunals. Nsw and NT mental health review tribunals. They are poorly paid and given costs of medical registration, cpd and now your suggestions of medical checks I am concerned that the cost will tip the balance and make continuing work unaffordable- this would be a loss to me but also to the community- loosing my experience
