Stakeholder details

Initial questions

To help us better understand your situation and the context of your feedback please provide us with some details about you. These details will not be published in any summary of the collated feedback from this consultation.
Question A
Are you completing this submission on behalf of an organisation or as an individual?
Your answer:
□ Organisation □
Name of organisation: Australian and New Zealand Association of Oral and Maxillofacial Surgeons
Contact email:
□ Myself
Name: Click or tap here to enter text.
Contact email: Click or tap here to enter text.
Question B
If you are completing this submission as an individual, are you:
☐ A registered health practitioner?
Profession: Click or tap here to enter text.
☐ A member of the public?
☐ Other: Click or tap here to enter text.
Question C
Would you like your submission to be published?
⊠ Yes, publish my submission with my name/organisation name
☐ Yes, publish my submission without my name/ organisation name
□ No – do not publish my submission

Your responses to the consultation questions

1. Is the content and structure of the draft revised specialist registration standard helpful, clear, relevant and workable?
Yes
2. Is there any content that needs to be changed, added or deleted in the draft revised specialist registration standard?
No
2 Anathana any impagnata fan nationta and agnaturana nautionlank, wilneyalda manchana af tha
3. Are there any impacts for patients and consumers, particularly vulnerable members of the community that have not been considered in the draft revised specialist registration standard?
community that have not been considered in the draft revised specialist registration
community that have not been considered in the draft revised specialist registration standard?
community that have not been considered in the draft revised specialist registration standard? Yes - In the specialty of OMFS, there is a huge variation worldwide in the scope and training of oral and

4. Are there any impacts for Aboriginal and Torres Strait Islander Peoples that have not been considered in the draft revised specialist registration standard?
As above
5. Are there any other regulatory impacts or costs that have not been identified that the Board needs to consider?
As above
6. Do you have any other comments on the draft revised specialist registration standard?
ANZAOMS holds concerns regarding the potential for creating a lack of clarity regarding training and expertise requirements for practising as an OMFS in Australia. A splintering of pathways has the
potential to lead to significant confusion over who is qualified to register and practice as an OMFS in Australia at a time when the Australian healthcare system is actively working to provide clarity to
Australians regarding the skills and qualifications of the practitioner than they are seeing.
