Publication of submissions

We publish submissions at our discretion. We generally publish submissions on our [website](#) to encourage discussion and inform the community and stakeholders about consultation responses. Please let us know if you do not want your submission published.

We will not place on our website, or make available to the public, submissions that contain offensive or defamatory comments or which are outside the scope of the subject of the consultation. Before publication, we may remove personally identifying information from submissions, including contact details.

We can accept submissions made in confidence. These submissions will not be published on the website or elsewhere. Submissions may be confidential because they include personal experiences or other sensitive information. A request for access to a confidential submission will be determined in accordance with the *Freedom of Information Act 1982* (Cth), which has provisions designed to protect personal information and information given in confidence. Please let us know if you do not want us to publish your submission or if you want us to treat all or part of it as confidential.

Published submissions will include the names of the individuals and/or the organisations that made the submission unless confidentiality is expressly requested.

Your responses to the consultation questions

1. Is the content, language and structure of the proposed statement clear and relevant? Why or why not?
<p>The Statement of Intent is a welcome commitment to interprofessional collaborative practice and the general structure is clear. The dot points are useful to summarise the main points.</p> <p>The statement “improving healthcare services for people in rural and regional communities that is free of racism” suggests that racism is focused in rural and regional communities. The need for anti-racism is mentioned in an earlier goal, so the repetition could be deleted here.</p> <p>Suggest avoid using the term “vulnerable group” within the goals section. Can this be rephrased?</p> <p>Prefer the term older people, rather than “elderly.”</p>
2. Is there anything else the accreditation committee should consider that would be helpful to include in the proposed statement? If so, please provide details.
<p>The commitment section lacks an action plan, or a statement about how the Statement of Intent will be enacted. Suggest additional wording be added, to clarify how this statement will inform accreditation requirements.</p>
3. Do you have any general comments or other feedback about the proposed statement?
<p>Our team were wondering if an infographic would assist the communication of the message regarding the need for interprofessional collaborative practice.</p>
