Dear Sir/Madam,

RE: Revised Options for international Criminal history checks

I refer to your email of October 4th 2013 seeking feedback on options for refining international criminal history checks.

ADPA Limited has considered the options put forward in the consultation paper and believes that the new option presented in the paper appears to have a number of benefits. However, as ADPA Limited and our members do not have any specific expertise in this area, we have no formal response to make to your request.

We will be happy to concur with AHPRA's preferred option.

Thank you for the opportunity to participate in this review process.

Yours sincerely,

CEO
Australian Dental Prosthetists Association Limited
