Health Profession Agreement

Medical Radiation Practice Board of Australia

and

The Australian Health Practitioner Regulation
Agency

2020-2025

Head Agreement

Preamble

The purpose of the Health Practitioner Regulation National Law (**the National Law**), as in force in each state and territory, is to establish the National Registration and Accreditation Scheme (**the National Scheme**). The National Scheme has six key objectives set out in s.3(2) of the National Law. In summary, the objectives are to:

- protect the public
- facilitate workforce mobility for health practitioners,
- facilitate high-quality education and training of health practitioners,
- facilitate assessment of overseas-trained health practitioners,
- facilitate access to health services, and
- development of a flexible, responsive and sustainable health workforce.

In accordance with the 2019 policy directions from the Council of Australian Governments (COAG) Health Council, the protection and safety of the public is the paramount consideration when administering the National Scheme.

Fifteen National Boards and the Australian Health Practitioner Regulation Agency (**Ahpra**) work in partnership to deliver these objectives, as well as the objectives of the National Scheme Strategy 2020-2025. Ahpra and National Boards have clear accountabilities for the separate and shared functions that contribute to achieving these objectives.

This Health Profession Agreement (**HPA**) is a statutory instrument under the National Law. Under the National Law, the Medical Radiation Practice Board of Australia (**the National Board**) and Ahpra are required to negotiate in good faith and attempt to come to an agreement on the terms of the HPA. Although the National Board does not have the power to enter into contracts generally (s.32(2)(a)), the National Law clearly intends that the Board will agree and execute an HPA with Ahpra.

Accountability Framework

The National Scheme Accountability Framework (**the Accountability Framework**) is at Schedule 1 to this HPA. It defines the accountabilities of all relevant entities in the National Scheme arising from their functions under the National Law.

The Accountability Framework is an essential foundational document for the partnership between Ahpra and National Boards as articulated by this HPA, as well as the exercise of delegated functions under the National Law.

The Accountability Framework will be reviewed annually by Ahpra and the Board in line with the other HPA schedules. However, to ensure the effective delivery of functions of the National Scheme, any updates or changes to the Accountability Framework require the agreement of Ahpra and all National Boards.

Purpose of this Agreement

The purpose of this HPA is to make provision for the following, as outlined in s 26(1) of the National Law:

- the fees payable by health practitioners and others in relation to the health profession for which the National Board is established,
- the National Board's annual budget, and
- the services to be provided to the National Board by Ahpra to enable the National Board to carry out its functions under the National Law.

This HPA also describes the relationship between the National Board and Ahpra, where Ahpra is both a governance and regulatory partner, as well as a service provider to the National Board. As such, it

outlines how both Ahpra and the National Board, as statutory entities, work together to achieve the goals of the National Scheme.

Behavioural Attributes

In line with the values articulated in the National Scheme Strategy, the National Board and Ahpra agree to the following behavioural attributes, the purpose of which is to provide guidance to each party in exercising its responsibilities under this HPA:

Value	Attributes
Integrity	• In line with our Regulatory Principles, we are fair, transparent, objective and consistent in our decision-making. • We are committed to doing what is right, even when it is difficult or unpopular. • We clearly explain the basis of our actions.
Respect	• We recognise diversity and treat everyone equitably and with empathy. • We are present, engaged and person-centred. • We support, and are accountable to each other in a considerate way. • We foster timely, open and civil interactions with all people.
Collaboration	• We work with others for a shared purpose (our Mission). • We listen, consider feedback and develop responsive solutions, while enabling others to do the same. • We engage with our stakeholders to build constructive relationships and support cultural safety for Aboriginal and/or Torres Strait Islander Peoples.
Achievement	• We actively work together to achieve our Vision. • We empower our people to strive for a culture of excellence and service. • We report accurately and proactively within and external to the Scheme to maintain community trust and practitioner confidence. • We recognise and celebrate our successes.

Period

This HPA is for the period 1 July 2020 to 30 June 2025 inclusive.

Liaison Officers

The National Board agrees to authorise the Chair of the National Board (or his/her nominee) to act as liaison officer with respect to the HPA. Ahpra agrees to authorise the Executive Director, Strategy and Policy to act as liaison officer with respect to the HPA.

Schedules

The following table outlines how the requirements of s. 26(1) of the National Law are represented in the HPA schedules, as well as describing the content of all other schedules.

Schedule 1:	Accountability Framework
Schedule 2:	Summary of Services to be provided to the National Board by Ahpra to enable the National Board to carry out its functions
Schedule 3:	Summary of National Scheme Strategy, implementation map, and National Board's regulatory plan
Schedule 4:	Fees payable by health practitioners
Schedule 5:	Summary of National Board's annual budget
Schedule 6:	Performance and Reporting
Schedule 7:	Equity Framework

The Performance and Reporting framework contained in Schedule 6 provides the mechanism for articulating performance metrics for the purposes of this HPA.

National Scheme Strategy 2020-25

The National Scheme Strategy outlines the shared vision, mission, values and strategic objectives for Ahpra and the National Boards.

Together, Ahpra and National Boards are focused on ensuring the effective implementation of our strategy including supporting and promoting our four strategic themes of regulatory effectiveness, capability and culture, evidence and innovation, and trust and confidence.

Issues management and escalation

Issues management and escalation provides a means to identify, track and resolve partnership issues throughout the life of the agreement ensuring each issue is resolved quickly and effectively between Ahpra and the Board.

An issue is defined as any problem or concern that has the potential to adversely affect the success of the partnership between Ahpra and the Board.

In line with our shared values, Ahpra and the National Board will work constructively to identify and resolve issues in a timely way and at the lowest possible level. Ordinarily, this will be achieved by discussion or negotiation between the relevant Executive Officer, the Chair/nominated National Board member and any other relevant Ahpra senior staff (generally at the level of a National Manager) with responsibility for a relevant functional area (e.g.: registrations, policy etc.).

In the event an issue remains unresolved, at the operational level it must be escalated in accordance with Ahpra reporting lines, to either the Executive Director, Strategy and Policy or the National Director, Regulatory Governance who will take reasonable steps to facilitate resolution of the issue to the satisfaction of Ahpra and the National Board.

In the event an issue needs to be escalated further, it will be escalated to the appropriate member(s) of Ahpra's National Executive, the Chair of the Agency Management Committee and/or dealt with as a dispute below.

Dispute resolution

The National Board and Ahpra have a commitment to working together constructively and in accordance with our shared values to reasonably prevent any issues escalating into disputes.

For the purposes of this HPA, a dispute is defined as any unresolved disagreement between the Board and Ahpra about the terms or schedules, including the performance of either party, of this agreement.

If a dispute arises, as partners, we will use our best endeavours to resolve the dispute respectfully, fairly and promptly.

If the dispute cannot be resolved, the matter will be referred to the Ahpra Chief Executive Officer and the Chair of the National Board. If the dispute still cannot be resolved, it will be referred to the Chair of Ahpra's Agency Management Committee and the Chair of the National Board.

Either the Chair of Ahpra's Agency Management Committee or the Chair of the National Board may request the appointment of an independent, accredited mediator at any stage in the process. The process for appointment is for both parties to agree to the appointment of the nominated mediator.

If we are still unable to agree on the matter, s. 26(2) of the National Law provides that any failure to reach agreement between National Boards and Ahpra on matters relating the HPA is to be referred to the Ministerial Council (as that term is defined in the National Law) for resolution. The National Board and Ahpra agree that this is a step of last resort that will not be taken unless all prior steps have been exhausted.

Review

The National Board and Ahpra agree to review the HPA head agreement at least every five years in line with the review of the National Scheme Strategy, or earlier with the agreement of all National Boards and Ahpra.

The supporting schedules will be reviewed and agreed annually by Ahpra and the National Board.

Publication

Once agreed, both the HPA head agreement and schedules will be published on the Ahpra and the National Board websites respectively.

Schedule 1: Accountability Framework

National Registration and Accreditation Scheme Accountability Framework v.1.8 (November 2019)

All entities in the National Registration and Accreditation Scheme (**the National Scheme**) are ultimately accountable to the public through the Ministerial Council. The [agreement between Australian Governments](#) on the design of the National Scheme creates interdependent statutory authorities with no single point of accountability for all National Scheme functions. The [Health Practitioner Regulation National Law Act, as enacted in each State and Territory \(the National Law\)](#) creates the legal basis for the National Scheme.

As a key component of the overall governance arrangements, this framework articulates the accountabilities of key entities arising from their roles and functions in the National Scheme. Ahpra, its governing Board (the Agency Management Committee (**AManC**), the National Health Practitioner Boards (**National Boards**) and their accreditation authorities are all entities created by National Law. Their powers and functions are prescribed in the National Law, the [Health Practitioner Regulation National Law Regulation 2018 \(National Law Regulation\)](#) or otherwise, conferred by applicable legislation. However, accountabilities for National Scheme entities also arise from statutory instruments, including policy directions from the Ministerial Council and from statutory agreements or other negotiated agreements.

External agencies, contractors or consultants cannot be held directly accountable for delivering the functions of an entity under the National Law. The mechanism for assigning responsibility for such functions is the contract or agreement that governs the provision of services. Under the National Law, only Ahpra can enter into contracts with external entities and accountability as to the management of the contract rests with the delegate approving the contractual arrangements.

Accountability can be delegated by an accountable person or entity to another person or entity. This framework is also designed to support the exercise of delegations in the National Scheme under section 37 and schedule 7 section 29 of the National Law. As a general principle, decision-making within Ahpra is delegated to the lowest reasonable level, having regard to the knowledge, experience and capabilities required to exercise the responsibility. Delegators must specify any conditions or limitations placed on the exercise of delegated powers and functions. For example, if a health profession National Board requires assurance that a decision will only be made with appropriate clinical input, this can be specified in the Instrument of Delegation to Ahpra. Ahpra is then responsible to ensure compliance with that specification when exercising the responsibility.

The Health Profession Agreement (section 26 of the National Law) with each National Board codifies the relationship with Ahpra as both a governance and regulatory partner and service provider.

Visual representation of accountability

The Ministerial Council is ultimately accountable for the National Scheme

Ultimate accountability for the performance of the National Scheme resides with the parliaments of each State and Territory of Australia, through the Ministerial Council. Under the National Law, the Ministerial Council may provide policy directions to Ahpra and the National Boards, approve registration standards, make regulations and approve certain other recommendations from National Boards in respect of specialist registration, or endorsements on registration. The Ministerial Council is also accountable for appointing the AManC and National Boards and can remove appointed members in specific circumstances. The annual report provided to the Ministerial Council and tabled in each Parliament is a key component of how Ahpra and National Boards are accountable to the Ministerial Council and parliaments.

The Agency Management Committee (AManC) is accountable for National Scheme performance

As the governing board for the National Scheme, AManC has a principal role in the approval, monitoring and reporting of performance of the National Scheme strategy as well as directing and controlling the affairs and policy directions of Ahpra. The AManC is accountable for National Scheme performance, including the establishment of regulatory procedures and general administration of the National Scheme. To enable it to perform its executive functions, Ahpra has powers to employ staff and enter into contracts.

Accountable to all Australian Parliaments, the Ministerial Council, the justice system, Administrative and Regulatory bodies for:

- all acts and things done by Ahpra.
- corporate governance, including Workplace Health and Safety for all physical and virtual work locations controlled by Ahpra.
- operational performance of the National Scheme.
- delivering Ahpra functions required by the National Law, including specific regulatory powers under Part 7.
- oversight and leadership on significant whole of scheme accreditation issues, including governance, accountability and transparency issues.
- compliance with relevant obligations set by other regulators.
- financial management in relation to the administration of the Agency Fund.
- appointment of the CEO, conferral of powers and delegations to the CEO.

Accountable to National Boards for:

- setting, monitoring and reviewing performance of the National Scheme Strategy.
- services provided by Ahpra to enable the Board to carry out its regulatory functions, including finance and communications.
- executing and managing contracts with accreditation authorities on the advice, and with approved terms and conditions, from the relevant National Board.
- executing and managing contracts for services with external providers on the advice, and with approved terms and conditions, from the relevant National Board.
- ensuring that Ahpra's operations are carried out efficiently, effectively and economically.

The Chief Executive Officer is accountable for the delivery of Ahpra's functions

The Chief Executive Officer is accountable for delivery of Ahpra's functions through an employment contract with and delegated authority from the AManC. The CEO also has a partnership responsibility with each National Board under the Health Profession Agreements.

Accountable to the Agency Management Committee for:

- implementing the National Scheme Strategy.
- delivery of Ahpra functions including specific regulatory powers under Part 7.
- delivery of services to National Boards.
- conferral and exercise of delegated functions by Ahpra.

Accountable to National Boards and their committees for:

- Effective, efficient and economic delivery of regulatory procedures and services consistent with the Health Profession Agreements.

National Boards are accountable as the principal regulatory decision-makers

National Boards are the principal regulatory decision-makers in the National Scheme, with delegated functions undertaken by Ahpra and by their committees including, where relevant, State, Territory or Regional Boards. National Boards are accountable to the Ministerial Council and Australian Parliaments for regulatory policies, the quality of their regulatory decisions, and through the court system and relevant administrative review bodies for the legality of their regulatory decisions. While National Boards can propose regulatory procedures, they do not establish or administer them. Without the power to employ staff or enter into contracts, National Boards rely on the partnership with Ahpra for the services provided under the HPAs.

Accountable to the Ministerial Council and Australian parliaments for:

- proper exercise of functions under National Law, including regulatory policies and the quality of their regulatory decisions.

Accountable through the justice system, administrative and regulatory bodies for:

- the legality of regulatory decisions, including by delegates. This can also include adequacy of standards, codes, guidelines, delegations and probity of decision-making processes.

Accountable to the AManC for:

- partnership responsibilities with Ahpra under the HPA, including provision of information to enable Ahpra to perform its financial management functions.
- informing and supporting the development of the National Scheme Strategy

Accreditation Authorities are accountable for the delivery of specific accreditation functions.

An accreditation authority may be an external entity, or a committee established by a National Board. The National Law creates a 'separation of powers' between National Boards and accreditation authorities by clearly specifying distinct decision-making roles in accreditation functions. Ahpra formalises arrangements for performance and funding of accreditation functions through contracts with external entities and terms of reference (TOR) for committees. Ahpra has facilitated the development of standardised agreements and TORs incorporating performance metrics and developed a cross-profession reporting model for accreditation authorities. These provide an overarching reference document for National Boards and Ahpra to assess the work of accreditation authorities.

Accountable to National Boards and their committees:

- the performance of accreditation functions as described in the contract with Ahpra or the relevant ToR.

Accountable to Ahpra for:

- delivery of funded accreditation activities, including compliance with performance measurement processes and reporting obligations, through an accreditation contract with Ahpra, or an approved ToR, on behalf of the National Board.

Schedule 2: Summary of services to be provided to the National Board by Ahpra to enable the National Board to carry out its functions

In the event of any exceptional circumstances, outside of the annual review of schedules, any changes to Schedule 2 will be negotiated with National Boards.

BUDGET NOTES

1. Registration	The budget for registration income is based on expected number of registrants invited to renew, new registrants enter and leave the profession during the year.
2. Board and committee expenses	This covers the meeting costs of the National Board and its committees' obligations under the National Law. Costs include sitting fees, travel and accommodation while attending meetings for the Board.
3. Legal, tribunal costs and expert advice	These costs are incurred in the management of complaints against practitioners (notifications). The costs do not include the significant Board and committee costs, including sitting fees, related to notifications (included in Note 2 above). Staff costs directly related to notifications are included in "indirect expenditure" below.
4. Accreditation	Accreditation expenses include the costs of funding provided to the Board's Accreditation Committee for accreditation functions and related projects.
5. Other direct expenditure	Costs associated with the Board's work on registration standards, policies, and guidelines. This includes the following activities: • Costs involved in consultation with the community and the profession • Engagement of consultants necessary to support the Board's work • Publication of material to guide the profession, such as the Board's newsletter • Clinical advisers • Board member professional development • Policy development and projects • Propose multi-profession health program
6. Indirect expenditure	Indirect expenditure includes all resources, systems and infrastructure managed by Ahpra to support the National Boards and committees, to manage core regulatory functions including registration, notifications, compliance, accreditation, and professional standards, along with support services and a contribution to strategic initiatives. These costs are allocated between cost activity 1 – 7 listed below. Cost activity 8 includes the continuation of the Business Transformation program. Indirect expenditure is shared by the National Boards using a detailed allocation methodology that has been approved by all National Boards. The 8 cost allocation activity categories are as follows: 1. Registration 2. Notification 3. Compliance 4. Policy and Engagement 5. Board Governance 6. Accreditation Support Service 7. Corporate Overhead 8. Strategic Projects

Schedule 6: Performance and reporting

This performance reporting program aims to facilitate the timely and effective delivery of functions under the National Law and the continuous improvement of the partnership between National Board and Ahpra.

There are three separate levels of reporting provided to National Boards outlined in more detail below:

1. Strategic Performance Reports
