Application for general registration for graduates from UK, Republic of Ireland, New Zealand and Canada

Profession: **Dental**

Part 7 Division 6 of the Health Practitioner Regulation National Law (the National Law)

This form is for dental practitioners who hold a qualification as listed below to apply for general registration. The Dental Board of Australia (the Board) recognises the following overseas qualifications as being substantially equivalent to an approved qualification:

- dental qualifications granted by institutions in the United Kingdom, Republic of Ireland or New Zealand, and listed in the Board's list of recognised qualifications from overseas jurisdictions published on the Board's website at www.dentalboard.gov.au, and
- Canadian graduates with degrees of Doctor of Dental Surgery (DDS) or Doctor of Dental Medicine (DMD) in general dentistry awarded after 31 March 2010 by universities in Canada (accredited by the Commission on Dental Accreditation of Canada) and who meet the 'additional requirements' set by the Dental Board which is the successful completion of the National Dental Examining Board of Canada examination.

A dental practitioner who applies under this pathway must also be able to demonstrate that they are eligible for registration as a dental practitioner in the relevant overseas jurisdiction in which the qualification was obtained. This will include (where relevant) the completion of an examination or any other prerequisites required for registration in the relevant overseas jurisdiction.

AUSTRALIAN NATIONAL GUIDELINES FOR THE MANAGEMENT OF HEALTHCARE WORKERS LIVING WITH BLOOD BORNE VIRUSES AND HEALTHCARE WORKERS WHO PERFORM EXPOSURE PRONE PROCEDURES AT RISK OF EXPOSURE TO BLOOD BORNE VIRUSES

The Communicable Diseases Network Australia (CDNA) has published these guidelines. The following is a summary of the requirements in the CDNA guidelines:

Healthcare workers who perform exposure prone procedures (EPPs) must take reasonable steps to know their blood-borne virus (BBV) status and should be tested for BBVs at least once every three years. They are also expected to:

- have appropriate and timely testing and follow up care after a potential occupational exposure associated with a risk of BBV acquisition
- have appropriate testing and follow up care after potential nonoccupational exposure, with testing frequency related to risk factors for virus acquisition
- cease performing all EPPs if diagnosed with a BBV until the criteria in the guidelines are met, and
- confirm that they comply with these guidelines when applying for renewal
 of registration if requested by their board.

Practitioners who are living with a blood-borne virus and who perform exposure-prone procedures have additional requirements. They are expected to:

- be under the ongoing care of a treating doctor with relevant expertise
- comply with prescribed treatment
- have ongoing viral load monitoring at the appointed times
- not perform EPPs if particular viral load or viral clearance criteria are not met (see detailed information in the guidelines according to the specific BBV)
- seek advice regarding any change in health condition that may affect their fitness to practise or impair their health
- · release monitoring information to the treating doctor
- if required, release de-identified information to the relevant area of the jurisdictional health department/Expert Advisory Committee, and
- if required, release health monitoring information to a designated person in their workplace in the event of a potential exposure incident to assess the requirement for further public health action.

Additional information can be found in the CDNA Australian National Guidelines for the Management of Healthcare Workers Living with Blood Borne Viruses and Healthcare Workers Who Perform Exposure Prone Procedures at Risk of Exposure to Blood Borne Viruses available online at https://www.health.gov.au/resources/collections/cdna-national-guidelines-for-healthcare-workers-on-managing-bloodborne-viruses?language=en

IMPAIRMENT

The National Law defines impairment as 'a physical or mental impairment, disability, condition or disorder (including substance abuse or dependence) that detrimentally affects or is likely to detrimentally affect your capacity to practise the profession'.

An illness or health condition that is safely managed is not the same as impairment, as these do not have a detrimental impact on your capacity to practise. Examples you do not need to tell us about include:

- wearing prescription glasses to correct your vision or hearing aids to correct your hearing, or
- seeing a psychologist for anxiety and following a treatment plan.

 The National Law requires you to declare any such impairments at the time of renewal, including details of the impairment and how it is managed.

PRACTICE

Practice means any role, whether remunerated or not, in which the individual uses their skills and knowledge as a practitioner in their regulated health profession. Practice is not restricted to the provision of direct clinical care. It also includes using professional knowledge in a direct non-clinical relationship with patients or clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of health services in the health profession.

PROFESSIONAL INDEMNITY INSURANCE (PII)

You cannot practise as a dental practitioner in Australia unless you are covered by your own, or third-party professional indemnity insurance (PII) arrangements that meet the requirements of the Board's registration standard. Remember, practising means using your skills and knowledge as a health practitioner in any paid or unpaid role in your profession.
