1. The Multi-Profession Registration and Notifications Committee meets only when an entire National Board is conflicted on a matter; for example, a notification about a Board member.

Appendix 2: Meetings of Boards and committees

This table shows the number of meetings held by the National Boards, national committees, and state/territory boards and committees. Each Board has different committee structures to support their day-to-day regulatory decision making and policy work, largely determined by both the volume and the risk profile of the tasks.

The purpose of the committees varies, and includes decision making about individual practitioners (for example, registration, notifications, immediate action and compliance matters). Finance and policy-oriented committees look at standards, codes and guidelines for the profession.

All the meetings listed for state/territory boards or state/territory committees, and most national committee meetings, were engaged in regulatory decision making affecting individual practitioners. Numbers include out-of-session and immediate action committee meetings where those occurred. Multi-Profession Registration and Notifications Committee meetings are shown for each Board where a practitioner from that profession attended and decisions were considered separately. In total, the Multi-Profession Registration and Notifications Committee held 14 meetings.

Appendix 3: State and territory board, committee, panel and group members

(c) community member (p) practitioner member

The members of state and territory boards, committees, panels, and of working, reference and advisory groups, make an enormous and valued contribution.

Members appointed for all or part of 2024/25 are listed, so some committees appear to have a larger

membership than they actually did at any given time. Part-year term dates are only shown for Chairs.

All boards have practitioner and community members. One-third of all National Board positions are filled by community members: 52 of 156 positions. On state and territory boards, 43.9% of positions are filled by community members: 69 of 157 positions.

Appendix 4: Attendance at Ahpra Board and committee meetings

This table shows how many meetings of the Ahpra Board and its committees each board member attended, compared with the total number of meetings those members were eligible to attend. Members who left or joined during 2024/25 were eligible to attend a smaller number of meetings. Not all Ahpra Board members are members of each committee.

Non-Ahpra Board members, including National Board Chairs and members, and some external experts, have also been appointed to the committees of the Ahpra Board. These members are at the end of each committee list. The co-convenor of the Forum of National Registration and Accreditation Scheme Chairs attends Ahpra Board meetings and appears at the end of that list.
