

Accreditation fees for medical radiation practice 2021-2024

Fees for accreditation assessments

The Committee did not propose a change to its current approach to accreditation assessment fees for the period 2021-2023 – that is, accreditation assessment fees will continue to increase by the indexation range (3%) each year.

Annual accreditation fee

The annual accreditation fee helps to support the work of the Committee to ensure it continues to be satisfied that each approved program and provider meet the accreditation standards. This work is required under the Health Practitioner Regulation National Law as in force in each state and territory (National Law). The fee does not include the cost of any site visits or a detailed accreditation assessment. Additional fees will apply if the Committee decides that, in light of the circumstances of a particular program and/or provider, it requires a site visit or detailed accreditation assessment.

Annual fee type	2021	2022	2023	2024
Annual	\$5,500	\$6,300	\$7,100	\$7,300 (3% increase on 2023)
Teach-out	\$2,000	\$2,000	\$2,000	\$2,060 (3% increase on 2023)
