Your responses to the consultation questions

1. Is the content, language and structure of the proposed statement clear and relevant? Why or why not?
<p>The language and structure is clear and relevant.</p> <p>The ADOHTA recommends the following amendments:</p> <p>Second paragraph Interprofessional collaborative practice refers.... Backgrounds work together with patients, families, carers, and communities to deliver the highest quality of care that is <i>patient-centred</i> and free <i>from any forms of discrimination including racism</i> across settings.</p> <p>The ADOHTA seeks clarification as to whether the term patient is the most appropriate terminology or whether 'consumer' is more appropriate.</p>
2. Is there anything else the accreditation committee should consider that would be helpful to include in the proposed statement? If so, please provide details.
<p>The ADOHTA believes it is important to include under the shared vision the 'improve recognition and respect of practitioners involved across various divisions within each profession'. Interprofessional collaborative practice does not succeed without respect and collaborative approaches to consumer needs among each profession.</p>
3. Do you have any general comments or other feedback about the proposed statement?
<p>The ADOHTA commends Ahpra for developing and consulting on this important piece of work and appreciates the opportunity to support and endorse this statement.</p>
