Dear Medical Board,

Regarding the Stage 2 Assessment of the application for Rural Generalist Medicine to be recognised as a new field of specialty practice, I strongly advocate that the AMC take Option 1, rather than retaining the status quo. As a fellow of both RACGP and ACRRM, I agree that the approval of Rural Generalist Medicine as a distinct field of specialty practice will support our workforce by increasing the awareness and attractiveness of a rural generalist career. This in turn, will improve access of rural and remote communities to our specialised and comprehensive care.

Warm regards,

Emily Moody
