CRIMINAL HISTORY

Criminal history includes the following, whether in Australia or overseas, at any time:

- every conviction of a person for an offence
- every plea of guilty or finding of guilt by a court of the person for an offence, whether or not a conviction is recorded for the offence, and
- every charge made against the person for an offence.

Under the National Law, spent convictions legislation does not apply to criminal history disclosure requirements. Therefore, you must disclose your complete criminal history as detailed above, irrespective of the time that has lapsed since the charge was laid or the finding of guilt was made. The Board will decide whether your criminal history is relevant to the practice of your profession. You are not required to obtain or provide your Australian criminal history report, Ahpra will obtain this check on your behalf. But if you have not given us certified proof of identity documents since October 2019, you will need to do this first.

Any document containing a photograph must be annotated with the statement 'I certify that this a true copy of the original and the photograph is a true likeness of the person presenting the document as sighted by me.'

You may be required to obtain international criminal history reports.

For more information, view the full registration standard online at www.medicalradiationpracticeboard.gov.au/registration-standards and the requirements for supplying proof of identity and certified documents at www.ahpra.gov.au/Registration/Registration-Process/Proof-of-Identity and www.ahpra.gov.au/Registration/Registration-Process/Certifying-Documents

CURRICULUM VITAE

Your curriculum vitae must:

- explain any period since obtaining your professional qualifications where you have not practised and reasons why (e.g. undertaking study, travel, family commitment)
- be in chronological order
- be signed and dated with a statement 'This curriculum vitae is true and correct as at (insert date)', and
- be the original signed curriculum vitae (no faxes or scanned copies will be accepted).

For practitioners returning to practice after a period of absence between three and five years, you must detail the level of CPD undertaken during the period of absence. It must also contain all the elements defined in Ahpra's standard format for curriculum vitae which can be found at www.ahpra.gov.au/cv

IMPAIRMENT

The National Law defines impairment as 'a physical or mental impairment, disability, condition or disorder (including substance abuse or dependence) that detrimentally affects or is likely to detrimentally affect your capacity to practise the profession'.

An illness or health condition that is safely managed is not the same as impairment, as these do not have a detrimental impact on your capacity to practise. Examples you do not need to tell us about include:

- wearing prescription glasses to correct your vision or hearing aids to correct your hearing, or
- seeing a psychologist for anxiety and following a treatment plan.

The National Law requires you to declare any such impairments at the time of renewal, including details of the impairment and how it is managed.

PRACTICE

Practice means any role, whether remunerated or not, in which the individual uses their skills and knowledge as a practitioner in their regulated health profession. Practice is not restricted to the provision of direct clinical care. It also includes using professional knowledge in a direct non-clinical relationship with patients or clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of health services in the health profession.

PROFESSIONAL INDEMNITY INSURANCE (PII)

You cannot practise as a medical radiation practitioner in Australia unless you are covered by your own, or third-party professional indemnity insurance (PII) arrangements that meet the requirements of the Board's registration standard. Remember, practising means using your skills and knowledge as a health practitioner in any paid or unpaid role in your profession.

Initial registration and annual renewal of registration requires a declaration that you will be covered for all aspects of practice for the whole period of the registration. You may be covered by your Australian employer's PII — you will need to confirm this with your employer.

For more information, view the full registration standard online at www.medicalradiationpracticeboard.gov.au/registration-standards

RECENCY OF PRACTICE

You are required to maintain the currency of your practice. To meet the standard you must have you have practiced in the profession for at least 450 hours in the past three years. If you are registered in more than one division, you must show that you have practiced for at least 450 hours in each of the relevant divisions of registration (diagnostic radiography, radiation therapy nuclear medicine technology).

If you do not meet this requirement you will be asked to provide information that will allow the Board to decide what requirements are necessary to enable you to return to practice safely. These requirements may include an assessment of your competence, additional professional development, a period of supervised practice and/or impose conditions on your registration.
