Subject: Fw: professional indemnity insurance

Hi there,

I agree with what is being proposed here. Every practising pharmacist should have their own professional indemnity insurance.

Also raising the IELTS score to 7.5 is great but if you look at the NZ model (few years ago) the score was 8 (over all) and minimum of 8.5 in listening and speaking, which I recommend to follow as I have some grave concerns about the ability of new graduates and some overseas pharmacists to communicate effectively with patients in general and elderly in particular.

Regards

 Pharmacist Proprietor
