### ENGLISH LANGUAGE SKILLS

To be eligible for registration you **must** be able to provide evidence of English language skills that meet the Board's *English language skills registration standard* which can be found at

### IMPAIRMENT

The National Law defines impairment as 'a physical or mental impairment, disability, condition or disorder (including substance abuse or dependence) that detrimentally affects or is likely to detrimentally affect your capacity to practise the profession'.

An illness or health condition that is safely managed is not the same as impairment, as these do not have a detrimental impact on your capacity to practise. Examples you do not need to tell us about include:

- wearing prescription glasses to correct your vision or hearing aids to correct your hearing, or
- seeing a psychologist for anxiety and following a treatment plan.

The National Law requires you to declare any such impairments at the time of renewal, including details of the impairment and how it is managed.

### OPTOMETRY COUNCIL OF AUSTRALIA AND NEW ZEALAND (OCANZ)

OCANZ is the assigned accreditation authority for the optometry profession. It accredits programs of study leading to registration and/or endorsement with the Optometry Board of Australia (the Board) and assesses overseas trained optometrists who are seeking registration with the Board and do not hold approved qualifications. More information can be found at [www.ocanz.org](http://www.ocanz.org)

### POSTGRADUATE TRAINING PLAN

A postgraduate training plan lists the purpose, anticipated duration, location, content and structure of training and the anticipated date of completion.

A template example can be found in the fact sheet at [www.optometryboard.gov.au/Registration-Standards/Limited-registration-for-postgraduate-training-or-supervised-practice](http://www.optometryboard.gov.au/Registration-Standards/Limited-registration-for-postgraduate-training-or-supervised-practice)

### PRACTICE

Practice means any role, whether remunerated or not, in which the individual uses their skills and knowledge as a practitioner in their regulated health profession. Practice is not restricted to the provision of direct clinical care. It also includes using professional knowledge in a direct non-clinical relationship with patients or clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of health services in the health profession.

## PROFESSIONAL INDEMNITY INSURANCE (PII)

You cannot practise as an optometrist in Australia unless you are covered by your own, or third-party professional indemnity insurance (PII) arrangements that meet the requirements of the Board's registration standard.

Remember, practising means using your skills and knowledge as a health practitioner in any paid or unpaid role in your profession.

Initial registration and annual renewal of registration requires a declaration that you will be covered for all aspects of practice for the whole period of the registration. You may be covered by your Australian employer's PII – you will need to confirm this with your employer.

For more information, view the full registration standard online at [www.optometryboard.gov.au/Registration-Standards/Professional-indemnity-insurance](http://www.optometryboard.gov.au/Registration-Standards/Professional-indemnity-insurance)

## REGENCY OF PRACTICE

To ensure that you are able to practise competently and safely, you must have recent practice in the field in which you intend to work during the period of registration for which you are applying.

The specific requirements for recency mean you must practice the profession a minimum of 450 hours every three years. You must also notify the Board and meet specific requirements if you change to a different field or scope or practice.

For more information, view the full registration standard online at [www.optometryboard.gov.au/Registration-Standards](http://www.optometryboard.gov.au/Registration-Standards)

## REGISTRATION APPROVAL DATES

**On the date of the Board's approval** – this means your registration will start on the date all application requirements are received and you're assessed as eligible for registration.

**On the date below or the date of the Board's approval, whichever is the latter** – this means your registration will start on the date you nominated, providing it is after the date of the Board's approval. If not, then your registration will start on the date of the Board's approval.

## SUPERVISION

Patients have the right to expect delivery of safe, competent and contemporary optometric services at all times, including when care is being provided under supervisory arrangements.

Appropriate supervision provides assurance to the Board and the community that the registrant's practice is safe and is not putting the public at risk.

Applicants granted limited registration for post graduate training or supervised practise must only practice under supervision in accordance with an approved supervised practice plan.
