Attention Dental Board

Re: Approval and indemnity cover for Botox usage on patients.

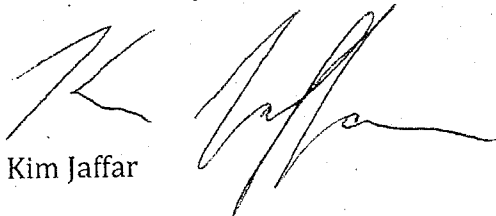

I have been a practicing dentist in Queensland for seventeen years.
My registration number is 935650.

I am planning to administer botox injections in patients at my practice.
I have been advised to contact the Australian Dental Board to seek approval
to perform botox procedures. The Queensland A.D.A has advised me I will have
indemnity cover (currently through the A.D.A) for botox procedures if the Dental
Board approves my usage of it.

I would be pleased to provide further information on the above.

The Dental Board's deliberation on the foregoing is appreciated.

Yours sincerely

Kim Jaffar
