Dear sir/madam

I am an IMG who passed the AMC examination four years ago and struggling with the OET exam, which I have done more than ten times, but unfortunately I could not get 4 Bs in one sitting. Many times I have got 3 Bs and one C and each time the C was in different competent.

I passed most of the sub test many times.

I spend a lot of money and time with this exam, during the last six months I spent \$3000.00 and this affects all my family situation, and sometimes I can't pay the normal bills.

Moreover, this affect on the psycho-social behavior of me and all my family members, especially the kids (they always asked; when you will finish your studying dad)?

I really appreciate it if we can pass this exam in more than one sitting.

We really need to start participating in normal life in our new country.

Yours faithfully,
