Subject: Oet 23 test experience

I feel reading is really hard . It is really very short time to complete part A test. I attempted first time this test but i met some students they were saying this is their 5 th attempt for oet and every time they failed in reading or writing . I really want if any body failed in any module they should tells us our weakness do we can improved . Actually why for nursing and doctor band score is same if you think about the education level , doctors have a high qualification . I really work hard and took coaching but i seen every attempt (oet)student failed in different module . I means every month if we sit how much money we spent especially it is not a knowledge test it is a i can say stress test . The cost of fee is very high i mean we can't stop working as in this country to service we need to work . Thanks i really think the student really need to sit for only that test in which they failed .
