Subject: Re: Criminal History Registration Standard - Public Consultation open

I suggest option 2 as the most cost effective method of checking overseas applicants criminal history. Option 3 would be probably increase existing members annual registration fees to cover cost of checking all overseas applicants criminal history. The extra time taken by applicants to obtain their criminal history check shouldn't be a major problem since it would take the same time for AHPRA fully investigate them. Thankyou for offering me a comment. Regards Jennifer Weekes
