Attachment D – Funding arrangements

The funding principles below will guide accreditation authorities, National Boards and AHPRA for the 2019/20 financial year initially. These funding principles may be reviewed under clause 6.

Item 1 – Funding Principles

These Funding Principles are to be applied by accreditation authorities, National Boards and AHPRA when they are considering and agreeing on the funding to be provided to the accreditation authority by the National Board/AHPRA for performance of the accreditation functions.

The principles aim to promote consistency, transparency and accountability for use of registrant fees to fund the accreditation function.

The National Board will provide funding through registrant fees to cover some of the indirect costs of the Accreditation Committee's activities related to program accreditation including monitoring.

The following principles will apply, in addition to the guiding principles and objectives of the National Law, and the Quality Framework for the Accreditation Functions, when the Accreditation Committee is requesting funding from the Board (funding request) and when the Board is deciding to provide funding to the Accreditation Committee (funding decision):

1. Requests for funding should be reasonable and proportionate to the activities being funded
2. The funding provided by the National Board should cover a proportion of the governance costs related to the accreditation functions
3. The funding provided by the National Board for the development and review of accreditation standards should be requested and considered separately to the funding
4. Requests for increases in funding from the previous year should not usually exceed the indexation range applicable to National Board fee increases
5. Where the Accreditation Committee considers an increase in funding above the indexation range is required, it should put the funding request and a business case supporting the increase above the indexation range to the National Board for their consideration
6. Such a request and business case should be forwarded to the National Board to enable them to have sufficient time to properly consider the funding request
7. The National Board may agree to the requested increase in funding or propose to agree to a lesser amount. Such a proposal and reasons for that proposal should be forwarded to the Accreditation Committee to enable it to have sufficient time to properly consider the proposed funding amount and reasons.
8. The National Board should agree to provide sufficient funding to enable the Accreditation Committee to effectively deliver the accreditation functions.

Item 2 – Funds

The Funds allocated by the National Board to support the work of the Accreditation Committee in the 2019/2020 financial year is: \$244,730.

Attachment E – Fee Setting Principles

The fee setting principles below will guide accreditation authorities when they are setting fees for third parties including education providers and overseas qualified practitioners. The principles below will initially apply in 2019/20 and may be reviewed and updated under clause 6.

These fee setting principles are to guide accreditation authorities when they are setting fees charged to education providers and, where relevant, overseas qualified practitioners, (third party fees).

1. The principles aim to promote consistency, transparency and accountability for fees charged by accreditation authorities.
2. When the National Board is approving the fees that AHPRA charges third parties in connection with the performance of the Accreditation Functions by the Accreditation Committee as part of its consideration and approval of the budget and Funds for delivery of the Work Plan for the next financial year the following principles should be considered:
 - a. Fees should be reasonable and proportionate to the cost of the services being provided to the third party
 - b. Increases in fees from the previous year should not usually exceed the indexation range applicable to National Board fee increases (up to 3%)
 - c. Where the Accreditation Committee considers an increase in fees above the indexation range is required, it should put the fee proposal and a business case supporting the proposal to the National Board for its consideration
 - d. Such a proposal should be forwarded to the National Board by mid-February or earlier each year to enable sufficient time for the Board to properly consider the proposal.
 - e. The National Board may advise the Accreditation Committee the proposed fee increase or a lesser amount will be applied. Such advice and reasons for that advice should be forwarded to the Accreditation Committee to enable it to have sufficient time to properly consider the advice and reasons when it is preparing its budget.
 - f. The National Board and Accreditation Committee must consult with education providers on any proposed fee increase that exceeds the indexation range

Attachment F – Reporting and documentation

The Accreditation Committee will report on a six-monthly basis against a template based on the KPIs and key activity data to be agreed between the Accreditation Committee, National Board and AHPRA.

The report template will focus on meaningful parameters and will seek to refine and improve, rather than increase, the current six-monthly reporting requirements.

Attachment G – Key Performance Indicators

Strategic KPIs

Key priority areas	KPIs
Cultural safety	The accreditation authority has standards and processes that require all education providers to include in their programs the ability for their graduates to deliver culturally safe health care including for Aboriginal and Torres Strait Islander peoples.
	The accreditation authority personnel are trained in cultural safety including for Aboriginal and Torres Strait Islander peoples.
Safety and quality	The accreditation authority has standards and/or processes that appropriately recognise the relevant National Safety and Quality Health Service Standards, including in relation to collaborative practice and team-based care.
Reducing regulatory burden and increasing consistency	The accreditation authority has standards and processes that appropriately recognise the TEQSA/ASQA standards and processes.
	The accreditation authority participates in collaborative activities with other authorities, including to develop consistent structures, standards or processes, to avoid any unnecessary regulatory burden and to facilitate education that contributes to a health workforce that responds to evolving healthcare needs.
Funding and fee principles	The accreditation authority applies the funding and fee principles listed in the agreement with AHPRA / terms of reference in its funding application to the relevant National Board and when it sets fees for accreditation functions.

KPIs based on Quality Framework

KPIs relating to individual or combined domains

Quality Framework domains	KPIs
Governance Independence	The accreditation authority has implemented a transparent selection process for its governance body
	The accreditation authority's published processes demonstrate independence in decision making
Operational management	The accreditation authority has implemented effective systems to regularly monitor and improve its accreditation processes.
	The accreditation authority has an effective risk assessment framework to identify and actively manage risk.

Possible KPIs encompassing the entire Quality Framework

The accreditation authority is achieving or exceeding in delivering against the Quality Framework, where the target level of performance may be $\geq 75\%$ (TBC)

Measurement of this KPI would be based on a composite score for all the Quality Framework KPIs outlined above (which would be developed through a consultative process) and a target set within that.

The accreditation authority would self-assess against the Scoring Framework and provide the self-assessment to both the National Board and AHPRA for their consideration and feedback. The self-assessment would be integrated with the six-monthly reporting to the Board/AHPRA.
