

Application for financial hardship at renewal of provisional registration or transition from provisional to general registration

Profession: Psychology

Part 7 Division 6 of the Health Practitioner Regulation National Law (the National Law)

You must submit this form and receive the outcome before you submit your renewal of provisional registration or application to transition from provisional to general registration for the 2020–2021 registration period. This form must be received no later than midnight AEDST 30 April 2021.

This form is for applicants who:

- are due to renew their provisional registration **or** are applying to transition from provisional to general registration through a Board approved pathway for the 2020–2021 registration period
- have not submitted either a renewal **or** an application to transition from provisional to general registration for the current 2020–2021 registration period, and
- are applying to pay the required registration fee in instalments due to financial hardship.*

Eligibility criteria

To be eligible you must be experiencing financial hardship* because the COVID-19 pandemic has resulted in you being:

- underemployed, or
- unemployed, and/or
- unable to work because of restriction of or disruption to the delivery of the health service, or caring responsibilities.

You must be experiencing financial hardship and at least one of the other criteria. Each application will be assessed on individual circumstances.

If you have already submitted your provisional registration renewal or your application to transition to general registration for the 2020–2021 registration period, then you are not eligible to use this form.

***Financial hardship** in the context of the National Scheme means that because of family tragedy, financial misfortune, unemployment, serious illness, impacts of a natural disaster and other serious or difficult circumstances a practitioner is unable to reasonably provide necessities such as food, accommodation, clothing, education and/or medical treatment for themselves, their family or other dependents, and by extension, the costs associated with their registration.

The COVID-19 pandemic is considered a national health emergency for the purpose of this definition.

This may be because of unemployment, caring responsibilities, and/or change in the financial circumstances in the applicant's immediate household and they are now the sole earner.
