

Accreditation fees for paramedicine

Information for education providers

The Paramedicine Accreditation Committee (the Committee) sets the fees for accreditation assessments, monitoring and annual accreditation on a cost recovery basis and the Paramedicine Board of Australia (Board) approves the fees. The fees are reviewed on a regular basis and may change from time to time.

Fees for accreditation assessment and transitional assessment

The current approved fee for initial accreditation assessment of a paramedicine program delivered at one site is \$30,900 (GST-free). This amount is applicable until 31 December 2025.

This fee includes one site visit. Different fees apply if:

- an education provider applies for assessment of two or more programs at the same time, and/or
- an assessment team needs to undertake more than one site visit, for example if the same program is delivered at more than one site or if evidence is not available at the first site visit.

A full accreditation assessment may not be required for programs that have completed an assessment against the 2020 *Accreditation Standards for paramedicine*. With the planned release of the 2026 Accreditation Standards for paramedicine, education providers will be assessed via a transitional assessment to determine how the education provider and its program/s meet the revised standards.

Annual and monitoring fees

This work is required under the Health Practitioner Regulation National Law as in force in each state and territory (National Law).

The fee does [not include the cost of any site visits or a detailed accreditation assessment of an education provider on the Board's list of approved programs](#).
