Introduction

The functions of the Aboriginal and Torres Strait Islander Health Practice Board of Australia include:

- registering the Aboriginal and Torres Strait Islander Health Practitioners and students
- developing standards, codes and guidelines for the Aboriginal and Torres Strait Islander Health Practice profession
- handling notifications, complaints, investigations and disciplinary hearings, and
- approving accreditation standards and accredited courses of study.

The Board's functions are supported by the [Australian Health Practitioner Regulation Agency](#) (Ahpra). For information about legislation governing our operations see Ahpra's Legislation & Publications at www.ahpra.gov.au/Publications

The Board has analysed its registration data and produced a number of statistical breakdowns about registrants to share with the profession and community. The Board shares these breakdowns regularly. For more information on Aboriginal and Torres Strait Islander Health Practice registration, please see the Board's website: www.atsihealthpracticeboard.gov.au/Registration

Pandemic response sub-register

In April 2020, Ahpra and National Boards established a temporary pandemic response sub-register for up to 12 months to help fast track the return to the workforce of experienced and qualified health practitioners to assist with the COVID-19 pandemic. In early April 2021, the Commonwealth Health Minister requested that Aboriginal and Torres Strait Islander Health Practitioners be extended to stay on the sub-register for up to 12 months to help with the COVID-19 vaccination program only. These Aboriginal and Torres Strait Islander Health Practitioners are included in these statistics. Please see the [COVID-19](#) page on Ahpra's website for more information.
