Dear Consultations Team

Just so this statement is crystal clear I think it could be reworded. Are you implying I shouldn't prescribe for someone the first time I see them via telehealth (or in person) or that I shouldn't prescribe for someone I haven't seen?

Prescribing or providing healthcare for a patient with whom you have never consulted, whether face- to-face, via video or telephone is not good practice and is not supported by the Board.

Many thanks

Dr Crowley
